PROFESSIONAL SUMMARY

Staff Frontend Engineer with deep expertise in React.js and Next.js, focused on scalable architecture, performance optimization, and developer experience. Experienced in designing, implementing, and maintaining scalable applications end-to-end, while driving technical strategy, mentoring engineers, and collaborating cross-functionally with product and design teams.Strong background in planning OKRs, quarterly goals, and engineering deliverables aligned with product needs and user impact. Proven ability to raise engineering standards, improve team execution, and deliver high-impact solutions across complex frontend systems.

WORK EXPERIENCE

Deel 2022–2026

Senior Frontend Engineer

- Enhanced user experience metrics by improving web vitals by at least 30%
- Led and maintained the HRIS team responsible for the company's core HR tools product
- Led the migration and scaling of the Roots platform into Deel, mitigating rollout risks and enhancing maintainability
- Defined technical trade-offs and delivery plans in collaboration with Product and Engineering teams to deliver scalable solutions
- Collaborated with Product Managers to plan and document deliveries for OKRs and quarterly goals
- Standardized frontend architecture for HRIS interfaces to improve structure, state management, error handling, and scalability across product areas
- Reduced loading time on critical pages by 50% through targeted refactoring and optimization, decreasing People List page load time from six seconds to three seconds on cold run
- Reduced bug and support backlog tickets by two-thirds through implementing planned bug sprints
- Mentored junior engineers via structured knowledge-sharing sessions and code walkthroughs, enhancing team productivity and code quality
- Contributed to the hiring process and onboarding of engineers
- Elevated quality standards and ensured technical consistency by facilitating pair programming sessions, performing code reviews, and supporting onboarding

Roots 2020–2022

Lead Frontend Engineer

- Boosted Slack bot usage and adoption by over 50%
- Directed frontend technical strategy and architecture to support user base growth
- Expanded the frontend team from a solo developer setup by recruiting and integrating three additional developers
- Led frontend development for nearly two years within a four-developer team, coordinating sprint planning and deliverables with managers and stakeholders
- Delegated and organized tasks and responsibilities among engineering team members
- Integrated accessibility standards in collaboration with UX designers, enhancing compliance and user experience

- Implemented advanced state management solutions to enhance application scalability and maintainability
- Optimized bundle sizes to achieve a 30% faster initial load time across key user flows
- Established CI pipelines on GitLab to deploy applications to Amazon S3
- Developed an end-to-end frontend application with React.js for a startup specializing in Slack bots for HR
- Drove product structure and traction to secure long-term viability

Maison Modern 2020–2022

Senior Frontend Developer

- Contributed to the newsletter project, achieving a 20% increase in income
- Delivered scalable frontend solutions integrated with external publishing platforms
- Implemented server-side rendering solutions to enhance SEO and improve initial load speed
- Developed responsive digital magazines and newsletters using Next.js and React for distribution across multiple countries
- Improved usability and performance of editorial products across devices
- Collaborated with UX designers to develop intuitive, accessible interfaces from complex requirements
- Led code reviews and established coding standards to reduce bugs and enhance maintainability
- Maintained support for daily viewership reaching thousands

Shall And Partners 2018–2020

Full Stack Developer

- Contributed to the development of a web and mobile application that received the Golden Award in 2019
- Promoted from Mid-level to Principal Frontend Developer on an HR platform for an American company
- Led development of a progressive web app prior to transitioning to a native Kotlin Android application
- Refactored codebase by transitioning to React Hooks to enhance maintainability
- Created internal tools that eliminated manual contractor timesheet entry by autofilling data based on prior submissions
- Engineered RESTful APIs to enhance data exchange between frontend and backend services
- Built web and mobile applications within a microservices architecture using Node.js and multiple databases

WEBFI 2016–2018

Frontend Developer

- Helped smaller industry clients grow sales by over 30%
- Led end-to-end frontend development for mid-sized applications from architecture through production delivery

Freelance 2015–2018

Freelance Web Developer

- Progressed from small frontend tasks to independently developing complete web applications

Toptal Mar 2026–Present

Senior Frontend Engineer

- Collaborated with Director and CEO to coordinate product decisions and implement new requirements and features

- Led integration of advanced accessibility standards, enhancing compliance and expanding the user base to accommodate diverse accessibility needs
- Architected and implemented a modular React and TypeScript component library to accelerate feature development and ensure UI consistency across multiple product teams
- Planned the initial architecture for a new company product scheduled for upcoming release
- Collaborated with backend engineers to design and optimize RESTful APIs, enhancing frontend data fetching efficiency.

EDUCATION

Universidade Federal Da Paraíba, Paraíba, Brazil 2019
Bachelor's Degree in Computer Engineering

CORE SKILLS

- Performance Optimization
- Frontend Testing Strategies
- TypeScript
- Developer Experience
- Ux/Ui
- Seo Optimization
- Ci/Cd Pipelines
- Frontend Architecture
- Next.js
- Server-Side Rendering
- Technical Strategy
- Technical Trade-Offs
- Agile Methodologies
- Mentoring
- Responsive Design
- Scalable Architecture
- Technical Leadership
- React.js

CERTIFICATIONS

Angular 2 And 4 Course From Basic To Pro, Udemy, Android Studio - Curso Completo Crie 10 Apps, Udemy, Learn And Understand AngularJS, Udemy, The Complete React Web Developer Course (With Redux), Udemy, Entendendo E Documentando REST / RESTful APIs, Udemy

---

AWARDS

Golden Award (2019)

LANGUAGES

English (Fluent), French (Intermediate), Portuguese (Native), Spanish (Intermediate)
